XI CONFERENCE ON STEEL AND COMPOSITE CONSTRUCTION 23 and 24 November 2017 - Coimbra, Portugal

The **XI Conference on Steel and Composite Construction** will be held in Coimbra - Portugal, in **23th and 24th of November 2017**.

Following the success of the previous Conferences, CMM organized, in the year in which the association celebrates its twentieth anniversary, the XI Conference on Steel and Composite Construction we intend to promote the most recent innovations and achievements in this type of construction, and contributing decisively for the promotion, consolidation and development of the sector.

The Conference will also be a privileged encounter for the exchange of ideas and experiences among the different actors in the design and execution of steel and composite structures, as well as in the teaching and research activities of the area. In this edition emphasis will be given to the theme of refurbishment of the built environment, considered as a priority and strategic for our country.

In this edition will be given special relevance to the theme "*Next Generation of Eurocodes*". We inform you that the deadline for **submission of abstracts** is **15th June de 2017**.

The participation in the Congress allows the best papers to be selected for **publication in CE/Papers - Digital Scientific Library from Wiley Online Library**.

The Congress will provide simultaneous translation Portuguese - English in order to promote the participation of international participants. Simultaneous translation is subject to a minimum number of entries from international congressmen.

The CMM conferences bring together designers, companies and researchers in a single space, with the participation of renowned national and international speakers. We present two of the invited speakers:

Professor Ulrike KUHLMANN

"Next generation of Eurocode 3 – Evolution by improvements and harmonization"

Professor Bert SNIJDER

"Recent developments regarding the next version of Eurocode 3 part 1-1 on steel structures"

The program of the XI Congress confirms the holding of the seminar **Purest - Promotion of new Eurocode rules for structural stainless steels**, where will be made a presentation of new design tools for Structural Stainless Steel, as the new 4th edition of the manual of design for stainless steel structural; and EC3 Apps stainless steel calculator. The seminar will have as speakers Professor Aldina Santiago, Professor Joel Cunha, and Professor Luís Simões da Silva.
