Venue

Poznań is a city on the Warta River in west-central Poland, in the Greater Poland region. The Old Market Square and its surroundings are among the most popular tourist attractions of the city. The Renaissance town hall, old tenement houses, cafes, restaurants and the local people create the unique atmosphere of the place.

On the front wall of the town hall you can see one of the city's main tourist attractions. When the clock strikes twelve, the doors of the small tower on top of the façade open to show two mechanical goats which butt their heads twelve times.

Poznań boasts a long-standing trade-fair tradition. The first Poznań Fair was held in 1921. The Poznań International Fair is one of the oldest institutions of this kind in Europe. The building known as "the Spire" is currently one of the symbols of both the trade fairs and the city.

The 14th ICMS'2021 will take place at the Conference Centre of the Poznan University of Technology. The University is among the most prestigious technical universities in Poland and dates back to 1919.

Main Topics

Advanced analysis and direct methods of design
Safety and reliability assessment
Structural stability and integrity
Fabrication and execution
High strength and stainless steel
Plane and spatial bar structures

Plated and shell structures
Towers and masts
Tanks and silos
Chimneys and pipelines
Joints and connections
Cold-formed elements and structures
Composite steel-concrete structures
Composite metal-wood structures
Sandwich structures
Cable and membrane structures
Seismic-resistant structures
Bridges and footbridges
Tall buildings
Fire resistance
Aluminium structures
Robustness and resistance to progressive collapse
Structural health monitoring
Refurbishment and repair
Sustainability in metal buildings
Fatigue and durability
Steel in architecture
Light cladding, covering and facades
Innovative and adaptive structures
Design recommendations and codification
Engineering education

Conference language

The conference language is English.

Conference sessions

All papers accepted by the Conference Scientific Committee will be presented orally during simultaneous thematic sessions. Keynote lectures will be presented by eminent researchers:

Chiara Bedon, Jean-Francois Démonceau, Leroy Gardner, Aleksander Kozłowski, Katarzyna Rzeszut, Luis S. da Silva, Leopold Sokół.

Call for abstracts

Participants wishing to present a paper are invited to submit an abstract, written in English, which should fit one page and should not exceed 400 words.

The abstract should include the name, title and affiliation, email address and complete contact information for all authors.

Abstracts should be submitted not later than 15.04.2021.
